

# RANGER GEAR

PROVIDING EQUIPMENT

## PROJECT DESCRIPTION

This project focuses on equipping rangers with the appropriate equipment necessary to carry out their work.

## PROBLEM STATEMENT

59.8% of rangers surveyed across Africa felt they did not have adequate equipment and amenities to do their jobs.

## PROPOSED SOLUTION

To ensure rangers are equipped with the necessary and appropriate equipment to carry out their work in an effective and safe manner.

## BENEFITS

- Ranger wellbeing, safety and morale.
- Species, habitats, ecosystems and communities.

## COSTS

- \$ 100 for a pair of boots.
- \$ 150 for an Individual First Aid Kit (IFAK) with potentially life saving equipment.
- \$ 800 per ranger for uniform and essential patrol equipment.

## OUR ACTION PLAN

We identify the equipment needs of rangers, source field tested equipment and ensure distribution of all ranger gear. We focus on the provision of basic equipment such as uniforms, boots and essential patrol kit.

## HOW YOU CAN HELP

- Sponsor the equipment of a ranger or ranger team.
- Raise funds for our Ranger Gear Project.
- Spread the word about the need to support rangers.
